Minor reconciling amendments in light of these changes are provided in Claims 2, 15 and 28. New independent Claim 54 includes recitations related to transferring a payment indicated as allowable subject matter in the Final Action. New dependent Claims 55 and 56 have been added to recite a data processing system and computer program product, respectively, configured to carry out the method of Claim 1. Accordingly, Applicant submits that, upon entry of this Amendment After Final, the present application will be in form for allowance. Applicant notes that these amendments are made to solely to expedite issuance of this application as a patent and without prejudice to Applicant's right to file a continuation application directed to the subject matter rejected in the Final Action.
